Career Objective

Motivated MCA fresher with a strong foundation in computer science and software development, seeking an entry-level role as a **Software Developer / Web Developer / Data Analyst**. Skilled in coding, debugging, database management, and problem-solving with hands-on project and internship experience. Passionate about applying academic knowledge to real-world business challenges while continuously learning and adapting to emerging technologies.

Education

Master of Computer Applications (MCA) | Jawaharlal Nehru Technological University (JNTU), Hyderabad, 2025 | CGPA: 8.2/10

Relevant Subjects: Data Structures & Algorithms, Operating Systems, Database Management Systems (DBMS), Object-Oriented Programming (OOP), Computer Networks, Software Engineering, Artificial Intelligence & Machine Learning, Web Technologies, Cloud Computing.

Bachelor of Science (B.Sc.) in Computer Science | Osmania University, Hyderabad | 2023 | Percentage: 75%

Technical Skills

- **Programming:** Java, Python, C, C++, JavaScript
- **Web Development:** HTML5, CSS3, React.js, Node.js
- **Database Management:** MySQL, MongoDB
- **Tools & Frameworks:** Git, Spring Boot, Bootstrap, REST APIs
- **Other Skills:** Data Analysis, Agile Methodology, Problem-Solving, Debugging

Internship Experience

Software Development Intern **| ABC Tech Solutions, Bangalore | Jan 2025 – Apr 2025**

- Developed and tested web application modules using **Java, Spring Boot, and MySQL**, improving backend efficiency.
- Assisted in debugging and resolving bugs, reducing reported errors by 20%.
- Collaborated with senior developers in an Agile environment, gaining exposure to **end-to-end software development lifecycle**.

Data Analytics Intern **| XYZ Analytics Pvt. Ltd., Hyderabad | Jun 2024 – Aug 2024**

- Performed **data cleaning and visualization** using Python (Pandas, Matplotlib, Seaborn).
- Designed SQL queries to extract and analyze business performance data, improving reporting accuracy.
- Created a dashboard using **Power BI** for real-time performance tracking, reducing manual reporting effort by 30%.

Academic Projects

Online Examination System (MCA Final Year Project)

- Developed a secure web-based exam system using **Java, MySQL, and React.js**.
- Implemented features like user authentication, time-based tests, and automated evaluation.

Movie Recommendation System (Machine Learning Project)

- Built a recommendation engine using **Python, Pandas, and Scikit-learn**.
- Implemented collaborative filtering to suggest movies based on user preferences.

Personal Projects

Portfolio Website

- Designed and hosted a personal website using **HTML, CSS, JavaScript, and GitHub Pages** to showcase projects and skills.

Task Manager App

- Created a **React.js + Node.js based app** to track tasks with CRUD operations and real-time updates.

Extra-Curricular Activities

- Certified in **Python Programming** (Coursera).
- Participated in **Hackathon 2024** organized by JNTU, and developed a prototype for a smart attendance system.
- Active member of Coding Club and Open-Source Contributor on GitHub.

Skills

oblem Solving | Team Collaboration | Communication | Time Management | Adaptability
